Date: _____

HIV Simulation Results

Directions: Answer the following questions from the results of the HIV Simulation. Results sheet will be due at the end of class.

1. What was your risk (High, Medium, Low)?
2. Did you test positive or negative for the virus?
3. How did the virus travel through the group?
4. Try and record its path through the class, who gave it to whom?
5. What was the percentage of students who ended up contracting the virus?
Note: The # of HIV positive divided by the total x 100.
